/in/ahmad-fraz-8b60a2222/

SKILLS

Backend Development | C++ , C# , Python , NodeJs , PHP , AI

Frontend Development | ReactJS , Javascript , Bootstrap , html , CSS

Frameworks | Laravel , React

AI Skills | Computer Vision

Soft Skill | Team player , Bias for action , Deliver Results

WORK EXPERIENCE

University Projects | C++ , C# , PHP , SQL database, AI , Computer Vision

November 2021 - Present

Hostel Management System

- Designed and implemented a console-based hostel management system in C++ to efficiently handle administrative tasks and student records.

Pacman Game

- Developed a console-based Pacman game in C++ featuring classic gameplay and interactive user controls.

Instagram Replica

- Built a web-based Instagram replica using PHP and an SQL database, enabling photo sharing, user profiles, and social interactions.

Admin Panels

- Developed comprehensive admin panels using PHP and a database to manage and oversee various backend operations efficiently.

Desktop Application

- Developed a C# desktop application for streamlined hostel management.

Wallet App

- Crafted a wallet app as part of a software engineering project, facilitating secure and seamless transactions for users within the application ecosystem.

Male and Female Voice Recognition System

- Created an AI-based system capable of accurately distinguishing between male and female voices using advanced voice recognition techniques.

Snapchat Filter using Augmented Reality

- Developed a Snapchat filter leveraging augmented reality and computer vision to create interactive and dynamic user experiences.

Freelancing Experience

November 2020 - Present

- Engineered robust database designs for optimized data storage.
- Developed a web-based management system using PHP for administrative tasks.
- Implemented diverse payment gateway methods within WordPress.
- Constructed dynamic e-commerce websites on WordPress.
- Integrated payment gateways' APIs for seamless transactions.
- Built an admin panel using Laravel for efficient website management and control.

EDUCATION

University of Engineering and Technology, Lahore

Bachelor of Computer Science

November 2021- November 2025

CGPA : 3.10/4.00

COURSEWORK

- Object Oriented Programming
- Data Structure
- Database
- Artificial Intelligence
- Computer Vision
- Operating System
- Applied Statics

CERTIFICATES

- Problem Solving** | HackerRank
- Data Structure** | HackerRank
- SQL** | HackerRank
- Full Stack Development** | Pakistan Freelancing Training Program
- Graphic Designing** | Digiskills

INTERESTS

- Problem Solving
- Continuous Learning
- Bug Bounty Hunting
- Certification and Courses
- Self Improvement

LANGUAGES

- Urdu
- English
